

Can Big Data Lead to Big Change? Lessons from GEMINI

with Fahad Razak^{1,2} & Amol Verma¹

1. Assistant Professor and Internist, St Michael's Hospital and Department of Medicine, University of Toronto
Scientist, Li Ka Shing Knowledge Institute, St Michael's Hospital
Provincial Clinical Lead for Quality Improvement in General Internal Medicine, Health Quality Ontario
2. Assistant Professor, Institute for Health Policy, Management and Evaluation, University of Toronto

GEMINI Investigators (missing: Janice Kwan)

at **St. Michael's Hospital**

LKSKI - Keenan Research Centre Auditorium, 2nd fl.
Wed. April 17, 2019 @ 12:00 to 13:00

LEARNING OBJECTIVES:

At the end of the presentation, participants should be able to:

1. Summarize how big data can catalyze change in healthcare through research, quality improvement, and system planning,
2. Describe how a big data platform can support "audit and feedback" and local quality improvement, and
3. Recognize the potential of routinely collected clinical data for diverse research applications, including use of artificial intelligence.

INTERACTIVE VIDEOCONFERENCE:

Baycrest: Telehealth Boardroom
Michael Garron: Gray Steele conference room
Sinai Health – Bridgepoint: G.001
Sinai Health – Mount Sinai: Main Auditorium, 18th floor
St. Joseph's Health Centre: Sunnyside Building Room 2S.257
