Wednesday, March 24, 2021 @ 12:00 to 13:00

LEARNING OBJECTIVES:

At the end of the presentation, participants should be able to:

1. Appreciate the rarity with which biomedical research results in therapies that meaningfully improve health,
2. Understand that the same applies to most efforts to improve the healthcare system, and
3. Recognize the importance of fundamentally reshaping research priorities to match the massive health crises we face.

EVALUATION & ATTENDANCE:
